

ULM ACADEMIC STRUCTURE COMMITTEE EXECUTIVE SUMMARY & IMPLEMENTATION PLAN  
SUBMITTED TO PROVOST & VP DR. MARK ARANT  
FEBRUARY 14, 2023

## I. Background

The ULM Academic Structure Committee was established by Provost and VP for Academic Affairs Drant during the Fall of 2022. The task of this committee was to examine each college's organizational structure, propose recommendations for academic restructuring, and outline an implementation plan while focusing on the overarching goal of producing well-rounded students poised for success in their lives and careers. Notable areas, such as budgets, were not considered because they were beyond the scope of this committee and not part of the charge.

The committee was charged with delivering recommendations to the Provost for organizational transformation that focused on

A). Redefining academic program oversight to bolster academic leadership, potentially through a department focus as opposed to a program or school focus.

B). Committing to more inclusive and equitable advancement opportunities for all.

C). Identifying options for organizational restructuring.

However, it is unlikely that every Task Force member would have the expertise to serve as the primary mechanism that would oversee, implement, and assess an entire restructuring process. The Task Force should be a mechanism of quick feedback and suggestions for the OCDI/Partnership and not the primary instrument of change.

- x It is recommended that all ULM employees be consulted and engaged throughout the entire restructuring process. The OCDI or Partnership should strive to regularly post on a website page all information, contribution opportunities, and the progress of the overall project. Every should be open, transparent, and easily accessible.
- x Faculty should have equitable support of their teaching and professional development. This committee highly recommends for ULM to consider providing different and specific avenues for employee advancement.
- x Standardization and transparency of administrative evaluations, job titles, definitions of roles, stipends and release time is strongly encouraged
- x The restructuring process should be communicated only with ongoing monitoring and assessment. (g)5.4 j h6..6 ffic
